

Wool CE Primary School

Educational Visits: Immediate Locality

(In line with consent number 3 within Arbor)

Rooted in the community to grow and flourish

Permission for Local Area Visits Taking Place Off Site

We believe that valuable learning can take place beyond the classroom. For this reason, we have mapped out potential visits for each year group across the year and have ensured they are progressive. For example, our youngest children in reception will begin with some shorter, local area walks but at the end of Year 6 children will be invited to engage in a two-night residential stay. The Coastal Learning Partnership Educational Visits Policy can be found [here](#).

Parents/Carers will always be asked to consent if staff are planning a visit off site and outside of our local area. Nevertheless, if staff plan an educational visit within our local area (as outlined below) then parents/carers will be informed that the visit is taking place though consent will not be necessary if you have already given your permission in Arbor.

Local Area for Educational Visits

The school is situated within a large village setting and the following destinations are planned into our curriculum overviews with a view to providing additional and enhancing learning opportunities:

- Wool library
- Wool play park and skate park
- The D'Urberville buildings and field
- Holy Rood Church
- Wool Bridge
- Fields beyond Holy Rood Church
- Woodland (i.e. Cole Wood)
- Village amenities (i.e. Williams the Bakers)
